

Dear Customer,

We are pleased to invite you to a **CD34 workshop on April 25, 2013**, where you have the possibility to learn more about CD34 typing, discuss different approaches to analysis and share results and experiences with colleagues.

Time and Location

10.00-16.00 BD Office, Stockholm, Sweden

Invited speakers

Professor Robert Sutherland, Department of Medicine, University of Toronto, Canada

Professor Sutherland will give a presentation on the ISHAGE protocol used for quantification of CD34. The intention is to give a deeper understanding for how CD34 analysis should be performed.

Dr David Barnett, UK NEQUAS for Leucocyte Immunophenotyping, Sheffield, England

Dr Barnett will give a presentation on the importance of standardisation within the area of CD34 analysis.

The meeting is free of charge but to be able to arrange for lunch and coffee we kindly ask you to register by sending an e-mail to bdbnordic@europe.bd.com

Welcome!
