New Information for 2023-2024

EQA / PT Programmes for Flow Cytometry

Changes to Measurable Residual Disease Programmes - Following the successful redesign of the **Measurable Residual Disease (MRD) for Plasma Cell Myeloma by Flow Cytometry** programme in 2022-2023, we will continue to roll these changes out to the other flow cytometry MRD programmes in 2023-2024.

These changes will include the ability to add and save antibody panels for future exercises; and the capture of additional clone information and staining intensity to facilitate troubleshooting.

Educational Electronic Trials - Having demonstrated the clear benefits of the electronic rounds, and due to an ongoing lack of sample availability in the **Measurable Residual Disease for Plasma Cell Myeloma by Flow Cytometry** programme, we will be reducing the number of rounds featuring wet samples to two per annum. We will be including an electronic round as standard to offset this.

Flow Cytometry Webinar 2023-2024 - Following the success of our molecular acute myeloid leukaemia MRD webinar we will be hosting a flow cytometry focussed webinar this year. Further details to follow soon!

SEE WEBSITE FOR FULL INFORMATION ON ALL OF THE ABOVE CHANGES

Should you wish to participate in any of the above programmes please contact:

UK NEQAS LI
Pegasus House
4th Floor Suite
463a Glossop Road
Sheffield S10 2QD
United Kingdom

Tel: +44 (0)114 2673600
Fax: +44 (0)114 2673601

email: admin@ukneqasli.co.uk
www.ukneqasli.co.uk

Please note that if your participation with UK NEQAS LI is via a non-UK distributor (and is outside of the UK) you should contact them directly for details of how to register.

If you are enquiring from outside of the UK your registration will be managed by EQA International Ltd.
